- Leading preferred image provider for major Pharma and CROs.
- Large network of KOL at national and international level.
- Innovative Management on imaging techniques.

About Us

Anagram started its activity in cardiovascular research and soon thereafter acquired experience in other top therapeutic areas for **clinical development**.

In 2018 the team expanded significantly by bringing in strong **Oncology** experienced partners with 4 Clinical Trials and IEC.

Our teams have **deep experience** in medical devices (regulatory & CE mark, study design) as well as in Investigational Product (drug) studies.

One of the most valued areas by clients is Anagram's **monitoring team**: experienced, reliable, supportive and a very stable team.
